

TEAM SIDELINE TROUBLESHOOTING

If you are experiencing trouble logging into Team Sideline and getting your account set up, here are some simple steps to get you started:

1. Go to "www.teamsideline.com/mppd"
2. On the left hand side click on "sign in"
3. Type in your email address in the username area, and then click "forgot password"
4. Team Sideline will then send a temporary password to your email. Use it to log in, and then once you are in you can customize a password for your account.
5. When you do log into your account, the page you will be at in "my accounts"
6. On that page there will be an area that says "Team Sites" and underneath that a clickable link that reads your team name. Click on that link and it will take you right to your team's page, where you will find all the information you'll need for the team (practices, games, coach's info, etc.).

If you experience any other issues with Team Sideline, please contact the Athletic Department.
