

August 2024 CJO Commissioner Report

- We are closing in on the official start of season next week! Its crazy to think how quickly the summer passed. Our coaches are wrapping up the final requirements to be ready to go.
- Outstanding items related to coaches:
 - Coaching shirts-Brian is working on
 - Coach bags/first aid kits/water bottles/mouthguards- we need to purchase kits, a few sets of water bottles, and mouthguards
 - Team splits-these have been scheduled for 8/16-8/20 (4th, 5th, and 6th grades)
- Outstanding items related to players:
 - Still a large amount of outstanding physicals due
 - Mouthguards- some were given to players, many were not. We will only provide 1 mouthguard per player this year and then give coaches a few for emergencies.
 - Equipment order- Brian is handling
 - Jersey distribution- Brian is handling
 - Signup genius for families based on signups at season prep meetings- Megan will handle this
- Board member related items:
 - Try to fall into respective “roles” as we head into season to ensure balance and feasibility (i.e. facilities, concessions, flag, etc.)
 - Field and facility prep- still a lot to accomplish prior to season start. If you are available to help, please ask who needs help.
 - Updated signup genius (we do not have 7/8 grade schedule yet):
<https://www.signupgenius.com/go/409084FAEAD2DA1FB6-48031764-24cjo#/> We have a lot of shifts that need covered. Some of these can be covered by spouses/adults that are experienced as well. Flag season may be a challenge for concessions/help especially.
 - Board shirts- Brian is working on
- Items I am currently working on:
 - Team pictures are scheduled and have been communicated to teams (8/26 & 8/27)
 - CJO night- we need more info on this but coaches and teams have been asked to arrive 1 hour prior and players should wear jerseys
 - Amazon Wish list- we can send this out to families that are interested in contributing.
 - CPR/AED course- \$55 fee through aquatic center, I need to reach out to Wes Leonard Heart Foundation to see when they could offer a course here and find out where the pediatric pads/wall mount and invoice are.
 - One Flock- getting this off the ground
