GYM ENTRY – MATTSON

GYM ENTRY – CEDAR HEIGHTS

COURTS

- The first court upon entry of the gym will be court 1.
- The furthest court from the entry will be court 2.
- Gym courts are expensive to maintain at tens of thousands of dollars to resurface them. Please make sure that we're NOT bringing outside food or drink into the gyms.

MATTSON STORAGE CLOSET

MATTSON STORAGE CLOSET

CEDAR HEIGHTS CLOSET

COVINGTON STANDARD/NET STORAGE

NET SETUP

- You will find the holes for the volleyball standards in the gym floor under each of the main baskets and near half court on the main basketball court.
- The easiest way to get the lid open is with a set of keys to prop it open.
- Make sure that the nets aren't twisted prior to putting them onto the poles.
- You won't need the antennas during practice. The padding is recommended but not required.
- At Mattson, there is a socket wrench that will be on the net storage unit. Please ensure that gets back there since that is how those nets get tightened.

NET SETUP

- When taking the nets down make sure everything is put back neatly.
- At Mattson, you will roll their nets up on their storage unit.
- At Cedar Heights, you will take the net an arm's length at a time and fold it up to hang it on the hooks.
- The poles will need to lean up against the wall neatly so they won't tip or fall over.

NET SETUP

- Net and pole setup –
