Lincoln Little League  
PO Box 563  
Lincoln, CA 95648

Dear Mr. Larry Rhodes,

This letter is to officially inform you and your organization that beginning with your spring 2012 season, the City of Lincoln will now be charging a field use fee for organizations with over 100 participants and at least 95% Lincoln residents. The field use fee will equal \$10 per participant. This will be an annual fee based on participation numbers during your season with the greatest number of participants. Your organization will not be charged for your smaller, off-season programs or leagues.

This fee is a result of the Master Fee Schedule that was approved by City Council in April. It helps offset the costs associated with maintaining fields and to allocate/schedule field use. All other smaller organizations/teams currently pay rental fees ranging from \$5 - \$20/hr depending on the percentage of Lincoln residents they have.

Payment of the fee will be due by the conclusion of your spring season. I will be in contact shortly after the season begins to determine what the participation number is. I will then prepare and submit an invoice based on that number. I encourage you to begin including this fee in your expenditure budget and include it as part of your fee for the next season.

If you have any questions, please don't hesitate to contact me.

Kind Regards,

*Doug Brown*

Recreation Supervisor  
City of Lincoln Recreation Department
