## April is Earth Month!

Hello Juneau!

April is here and with it comes spring! At least that's what we hope for. April is also Earth Month with Earth Day falling on April 22nd. In an increasingly fast paced world, it's easy to forget to stop and notice the beauty of the world around us. That beauty doesn't come about without some help from humans.

This month, as the weather begins to change, join me in taking care of our parks. If you notice garbage or recyclables on the ground, pick them up and dispose of them properly. Additionally, please be mindful of what you leave behind at parks. Frequently, there are water bottles and food containers left in the basketball court not far from the garbage can in the courts. If you have a picnic or gathering at our pavilions or parks remember to clean up spills and garbage. Not doing so could attract unwanted critters to the area. Squirrels and birds are one thing, vermin and predators are another. I hope to see you in the parks. Happy Earth Month!
