

# **BOLINGBROOK PARK DISTRICT: ADULT BASKETBALL LEAGUE LEVEL OF PLAY**

---

## ***Competitive or A Division***

The competitive level is for participants and teams that have played the sport for a large portion of their life and thrive on the sheer competition of the game. Participants at this level should be highly skilled and ready to bring their "A" game. This is the level for teams that thrive on competition and play to win it all.

## ***Recreational or B Division***

The recreational level is geared towards participants and teams that may still be relatively new to the sport or prefer to focus on the social aspect, but are seeking a little bit of competition from time to time. Participants at this level should understand the rules and have played for a few seasons. This is a great level for teams who understand that at the end of the day it doesn't matter if they win or lose as long as they are having fun!

**Any questions regarding the Level of Play please contact:**
