

Emergency Procedures

At times, emergencies such as weather, medical, power failure, etc. can disrupt organization operations. In extreme cases, these circumstances may require the closing of the facility. Emergency closings will mirror closings of USD 416.

In the event of a medical emergency follow these steps:

- Call 911
- Notify the LRC supervisor and/or Director immediately
- If the person in distress is a minor notify the parent or guardian (if not on site)
- Director will notify LRC Board
- Provide necessary care
- Members of the public should not be allowed to assist in treatment unless absolutely necessary
