

GameChanger Scoring Protocol

Home team

- Is the official scorer and should be the only one to “finalize” the game.
- Please use Live Scoring so that fans near and far can watch your game in real time.

Visiting team

- Should also score the game so there is a backup, but must do so offline.
 - On your device, under general settings, turn off the data on the GC app.
 - At the conclusion of the game, just “Exit Game.” Let the Home Team “Finalize” the game.
 - You can sync the game online after the home team finalizes the game.
- Please do not “kick out” the Home Team by scoring the game live.

Tips for your Fans

Since the only Home Team should be scoring “live,” friends and family can watch any game no matter who is scoring by simply following all the teams in their division.

Fans may want to turn off their notifications to prevent constant updates from games they may not be watching at that time.

Scorekeeper Resources

Need a GameChanger Tutorial? On the GameChanger app, look under Help > Scorekeeper Training.
